VE1
"icon: Eye symbol overlaid on a document to indicate visible information."
"icon: Magnifying glass highlighting a specific section of a page layout."
"icon: Checkmark inside a document to signify all needed information is present."
These prompts focus on the concept "The information you need is visible." VE1

VE4
"icon: Tight grid within a square to represent concise layout."
"icon: Scaled-down elements within a bounded area."
"icon: Abbreviated text or symbols within a display screen."
Each prompt targets the principle "The visual layout is concise." VE4

SE3
"icon: Compass needle pointing from a known element to an unknown one."
"icon: Search magnifier transitioning from a familiar to unfamiliar area."
"icon: Footprint or breadcrumb trail leading from a known point to an unexplored one."
These prompts encapsulate the idea "There are routes from a thing you know to something you don't." SE3

TE4
"icon: Single symbol (e.g., a triangle) within a diagram linked to a specific definition."
"icon: Road sign displaying 'One Way', emphasizing the unidirectional interpretation of elements."
"icon: A '1:1' ratio symbol next to a diagram element, denoting one element to one meaning."
Each icon emphasizes the concept "Elements mean only one thing." TE4

VE5
"icon: Magnifying glass revealing detailed section within a larger structure."
"icon: Mini-map corner overlay on a detailed view."
"icon: Zoom-in symbol with a surrounding context outline."
Each prompt is centered around the idea "You can see detail in context." VE5

SE4
"icon: Scale balancing two different shapes or colors to indicate comparison."
"icon: Side-by-side elements with contrasting features highlighted."
"icon: Venn diagram showing overlapping and non-overlapping regions."
Each prompt focuses on the experience "You can compare or contrast different parts." SE4

ME4
"icon: Distinct shapes separated by a line."
"icon: Font characters with strikethrough for clarity."
"icon: Two shapes with a 'not equal' sign between them."
Each prompt focuses on the experience "You can tell the difference between things." ME4

TE2
"icon: Lightbulb inside a flowchart, indicating the discovery of new insights."
"icon: Open book overlaid on a pie chart, representing new knowledge gained."
"icon: Eye with a plus sign, symbolizing enhanced understanding through visual cues."
These prompts target the key idea "You can read-off new information." TE2

VE2
"icon: Two overlapping shapes with a clear outline to represent an overall story."
"icon: Human figure gazing at a simplified diagram to signify 'gestalt' view."
"icon: Telescope focusing on a single point within a larger configuration."
These prompts target the key idea "The overall story is clear." VE2

VE3
"icon: Highlighted area within a complex diagram to signify attention focus."
"icon: Magnifying glass over emphasized element in a structure."
"icon: Arrow pointing towards a highlighted section in a complex diagram."
Each prompt emphasizes the concept "Important parts draw your attention." VE3

SE1
"icon: Connected dots within a bounded area to signify visible relationships."
"icon: Elements with matching colors or shapes to indicate a relationship."
"icon: Magnifier over labeled elements, highlighting matching labels."
These prompts focus on the notion "You can see relationships between parts." SE1

ME1
"icon: Simple object next to its schematic outline."
"icon: Mirror with real and symbolic images."
"icon: Pencil drawing a basic shape."
Each prompt is focused on the experience "It looks like what it describes." ME1

ME3
"icon: Matching shapes in two sections of a diagram."
"icon: Color-coded elements for similarity."
"icon: Twin icons with a consistency label."
These prompts target the experience "Similar things look similar." ME3

TE3
Icon 1: Pause button overlaid on a diagram, indicating the need to stop and think.
Icon 2: Light bulb adjacent to a complex equation or diagram, representing insights gained through contemplation.
Icon 3: Hourglass next to a diagram, emphasizing the benefit of taking time to think.
Each icon emphasizes the concept "It makes you stop and think."

TE5
Icon 1: Joystick interacting with diagram elements.
Icon 2: Hand cursor dragging an element into a new position within the diagram.
Icon 3: "Shuffle" arrows randomly rearranging diagram elements.
Each icon emphasizes the concept "You are drawn in to play around." TE5

IE1
Icon 1: Cursor hovering over clickable button within a diagram.
"Icon: A hand approaching a set of two levers about to operate them."
"icon: Finger tapping on a touch screen with distinguishable interactive elements."
Each prompt emphasizes the concept "Interaction opportunities are evident." IE1

PE6
"icon: Cursor hovering over an annotated section."
"icon: Checklist beside various diagram elements."
Each prompt focuses on the experience "The purpose of each part is clear." PE6
"icon: Clock with a backward arrow, indicating history or undo capability."
Each icon emphasizes the concept "The content can be preserved." PE6

ME2
"icon: Label tags on different diagram parts."
"icon: Version tree, showing branching and merging."
"icon: Floppy disk and camera, indicating save options."
These prompts focus on the concept "Elements can be re-interpreted/re-used." ME2

IE2 IE3 IE5 PE2 PE5 SE2 ME5 IE4 TE1 PE1 CE1 PE3 PE4 CE2 CE3 CE4 IE6 ME6

"Icon: Wrench and screwdriver overlaid on a flowchart."
"Icon: Paintbrush touching a circuit diagram."
"Icon: Smiley face integrated into a bar graph."
Each prompt emphasizes the concept "The visual connotations are appropriate." ME6

"Icon: Finger pointing to a labeled section within a complex diagram."
"Icon: Magnifying glass focusing on a named or numbered part in a diagram."
"Icon: Sticky note annotation attached to a specific element in a diagram."
Each prompt emphasizes the concept "It is easy to refer to specific parts." IE6

"Icon: Intersecting pathways, indicating the freedom to choose various methods."
"Icon: Open door and closed door, illustrating options and decisions."
"Icon: Traffic light with all colors lit, indicating unrestrictiveness."
Each icon emphasizes the concept "Anything not forbidden is allowed."CE4

"Icon: Kaleidoscope, representing shifting perspectives."
"Icon: Pencil with varying line thickness, indicating the freedom to sketch loosely."
"Icon: Eye with multiple irises, suggesting different ways of seeing."
Each icon emphasizes the concept "You can see different things when you look again." CE3

"Icon: Eye with a filter overlay, indicating selective interpretation."
"Icon: Book with a magnifying glass on a word bubble, denoting guidelines or notes that change interpretation."
"Icon: Gear and code brackets interlinked, signifying customization of processing logic."
Each icon emphasizes the concept "You can redefine how it is interpreted." CE2

"Icon: Cursor hovering over an incomplete diagram, displaying a 'Run Test' button."
Icon: Ladybug next to a code snippet, symbolizing debugging and feedback.
"Icon: Hand sketching an element onto an incomplete diagram, with a checkmark overlay."
Each icon emphasizes the concept "You can try out a partial product." PE3

"Icon: Cursor hovering over a 'Draft Mode' button next to a diagram."
"Icon: Whiteboard with diagram and eraser, indicating editability."
"Icon: Diagram resembling a pencil sketch with a 'Temp' (Temporary) tag."
Each icon emphasizes the concept "You can be non-committal." PE4

"Icon: A hand placing puzzle pieces in non-linear order."
"Icon: Flowchart with multiple entry points, symbolizing user-defined task order."
"Icon: Magnifying glass over repeat loop, highlighting the evolution of tasks."
Each icon emphasizes the concept "The order of tasks is natural." PE1

Icon: Toolbox with a "+" sign, indicating the ability to add new elements.
Icon: Nested circles with a pencil intersecting, representing meta-level thinking and editing.
Icon: Scales balancing abstract shapes and a code snippet, signifying the balance between abstraction and complexity.
Each icon emphasizes the concept "You can extend the language."CE1

"Icon: Cursor hovering over an 'undo' button next to a diagram."
"Icon: Warning sign next to a critical element within the diagram."
"Icon: Hand pushing a 'confirm' button to finalize changes in a diagram."
Each prompt emphasizes the concept "Accidental mistakes are unlikely." IE4

Icon 1: a lazy brain icon in the same style
Icon 2: Eye looking at a simplified diagram, indicating easy perception and low mental effort.
Icon 3: Checklist icon next to a diagram, emphasizing pre-planned actions and ease of recognition.
Each icon emphasizes the concept "You don't need to think too hard." TE1

"Icon: Cursor hovering over an 'undo' button next to a diagram."
"Icon: Eraser erasing a connection between two elements."
"Icon: Undo arrow circling back to a previous layout."
"Icon: Scissors cutting a line connecting two boxes."
Each prompt is geared towards the concept "You can change your mind easily." SE2

"Icon: Pencil annotating a diagram."
"Icon: Highlighter over text or shapes."
"Icon: Sticky note attached to a diagram element."
These prompts aim to capture the experience "You can add comments." ME5

"Icon: User's avatar aligning a task block into a diagram that matches their goal."
"Icon: Scales balancing a user goal and a diagram feature."
"Icon: Hand drawing a line connecting a user goal to a corresponding diagram part."
Each icon emphasizes the concept "Things you take match your goals." PE2

"Icon: 'Copy-Paste' symbols over a diagram section, indicating repetition."
"Icon: Automation gear interlinked with mini-diagrams."
"Icon: Macro button next to a diagram, suggesting automated actions."
Each icon emphasizes the concept "Repetition can be automated." PE5

"Icon: Finger tapping a large, prominently displayed button within a diagram."
"Icon: Cursor easily snapping an element into a pre-defined slot in a diagram."
"Icon: Hand picking from a limited set of toolbar options within a diagram editor."
Each prompt emphasizes the concept "Easier actions steer what you do." IE5

"Icon: Hand placing an element into a diagram, with a "locked" symbol beside it."
Icon: a pin, designed as a flat minimalist monochromatic single-width icon.
"Icon: Diagram with an undo button to revert automatic adjustments."
Each prompt emphasizes the concept "Things stay where you put them." IE3

"Icon: Hourglass quickly flipping to represent immediate feedback."
"Icon: Cursor smoothly dragging an element within a diagram."
"Icon: Progress bar filling up quickly next to a moved diagram object."
Each prompt emphasizes the concept "Actions are fluid, not awkward." IE2
